

Iteration 2 Backlog

Notes

Number	Description	PD est.	By
	High Priority		
	Iteration 2		
201	Connect Login/Register page with Artist Profile Page	1	SK
202	Design wireframe for creating Artist Profile Page	0.5	TM
203	Build functionality for Artist Profile Page using React	1.25	TM, NJ
205	Develop backend APIs for profile creation (Node.js)	1.25	SK
206	Setup database tables using MongoDB to store data of artist profile	1	SK
207	Perform manual testing to verify profile creation functionality	0.25	All
208	Build functionality for Edit Profile using React	1.5	TM
209	Develop UI for Edit Profile using React	1	TM, NJ
210	Develop backend APIs for profile editing (Node.js)	1.5	SK
211	Setup database tables using MongoDB to update artist profile	0.25	SK
212	Perform manual testing to verify profile editing functionality	0.25	All
213	Build functionality for Post Creation using React	1.5	TM, NJ
215	Develop backend APIs for creating post (Node.js)	1.5	SK
216	Set up MongoDB collections to store posts	0.5	SK
217	Perform manual testing to verify post creation functionality	0.25	All
218	Design wireframe for Landing/Home page	0.5	NJ, TM
219	Develop UI for Landing/Home page using React	1.25	NJ, TM
220	Develop backend APIs for Landing/Home page (Node.js)	1.25	SK
221	Perform manual tests to verify landing page functionality	0.25	All

	Medium Priority		
222	Integrate the frontend and backend systems for the Profile Creation feature.	1	SK
223	Integrate the frontend and backend systems to ensure smooth operation for the Post Creation feature.	1	SK
224	Integrate the frontend and backend systems to ensure smooth operation for the Edit Profile feature.	1	SK
225	Integrate the frontend and backend systems to ensure smooth operation for the Landing/Home Page.	1	SK

	Low Priority		
226	Design and develop user interface for Post Deletion (React)	1	TM, NJ
227	Build the post deletion feature with Node.js	1	SK
228	Develop backend APIs for post deletion	0.5	SK
229	Set up MongoDB collections to delete posts	0.25	SK
230	Perform unit and integration tests to verify post deletion functionality	0.5	All
231	Design and develop user interface for Profile Deletion (React)	1	TM, NJ
232	Build the Profile deletion feature with Node.js	1	SK
233	Develop backend APIs for Profile deletion	0.5	SK
234	Set up MongoDB collections to delete user profile	0.25	SK
235	Perform manual testing to verify profile deletion functionality	0.25	All
